PROFESSIONAL SUMMARY

Aspiring Python Full Stack Developer with a strong foundation in frontend and backend development, REST API design, database management, and software engineering principles. Proficient in Python, Django, REST APIs, SQL, JavaScript, React.js, HTML5, CSS3, and modern web frameworks. Experienced in designing responsive, user-centric applications, deploying end-to-end web solutions, and managing client-focused freelance projects.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML5, CSS3
Frameworks & Libraries: Django, React.js, FastAPI, Bootstrap
Databases & Web Services: MySQL, SQL, REST APIs
Tools & Platforms: Postman, Git, GitHub, VS Code, Figma

PROFESSIONAL & INTERNSHIP EXPERIENCE

Freelance Python Backend Developer

Apr 2026 – Jun 2026

Self-Employed

- Developed and deployed **GiftHub.sale** on Hostinger, a full-stack digital gift card and voucher e-commerce platform using Python, Django, MySQL, React.js, HTML, CSS, and JavaScript.
- Integrated secure OTP-based user authentication utilizing SMTP mail services alongside Razorpay payment gateway integration for secure online transactions.
- Engineered a comprehensive admin panel to streamline user management, voucher listings, order tracking, and optimized SQL database query performance.
- Designed robust REST APIs and thoroughly tested endpoints using Postman to ensure high performance, security, and reliability.

Frontend Developer Intern

Jun 2024 – Jul 2024

IBM SkillsBuild

- Developed responsive web pages using React.js, HTML, CSS, and JavaScript.
- Improved UI responsiveness, accessibility, and cross-browser compatibility across devices.
- Built reusable frontend components and collaborated on web development projects.

PROJECTS

Placement Drive Management System

Python, Django, SQL, HTML5, CSS3, JavaScript, Render

- Developed and deployed a web application tailored for educational institutions and academies to streamline campus recruitment drives.
- Built an intuitive portal for students to explore upcoming placement drives, view job requirements, and submit applications.
- Implemented an admin dashboard for placement officers and recruiters to post job opportunities, track student applications, and manage drive schedules using Django and SQL.

Real-Time Action Identification System

Python, OpenCV, MediaPipe, Machine Learning, Twilio

- Developed a real-time human activity recognition system using computer vision.
- Implemented fall detection using pose estimation and machine learning techniques.
- Integrated WhatsApp alerts and geolocation support using Twilio API.

Online Auction System (Android Application)

Java, XML, Firebase

- Developed an Android app for real-time online bidding and auction management.
- Implemented secure user authentication using Firebase Authentication.
- Managed real-time product listings, bidding, and history using Firebase Realtime Database.

EDUCATION

Master of Computer Applications (MCA) | CGPA: 8.26/10

2023 – 2025

B.S. Abdur Rahman Crescent Institute of Science and Technology, Chennai

Bachelor of Computer Applications (BCA) | CGPA: 8.16/10

2020 – 2023

Bharath Institute of Higher Education and Research, Chennai

CERTIFICATIONS

- Full Stack Web Development in Python (Completed) - Softlogic Academy (SLA), KK Nagar
- IBM SkillsBuild - Frontend Web Development
- Cloud Computing | Machine Learning | UI/UX Design Fundamentals
